Payment to Illinois with Extension:

Filing an extension will give you an additional 6 months to file your tax return, however it does not extend the time that you have to pay any tax due. Illinois charges a 1.5% (of net income) replacement tax to all businesses or 6.45% if you elect to pay PTE tax. To avoid penalties and interest you should pay in an estimate of this tax, with your extension, by March 15th. This can be paid by check or via My Tax Illinois.

Amount you would like to pay with your Illinois extension (if any): \$_____
